

ParentPay – What is it?

ParentPay is an online cash system that allows parents/carers to pay money into an account to pay for school meals, trips and other items. As the School is getting more and more used to ParentPay we are adding more and more items that can be purchased through ParentPay, such as school ties and exams.

ParentPay is more widely used for dinner money. Parents/Carers can log onto their accounts and see exactly what their children are eating and drinking at breakfast, break and lunch. You can set a limit per day, and you can pay as little as £5 per transaction. Students have a biometric thumb print taken and then when they go to the tills put their thumb print on the register and payment is taken out of their account, therefore alleviating the need to find dinner money each week or your child to carry money around.

GOING CASHLESS – FREQUENTLY ASKED QUESTIONS

Q What is a cashless system?

A A Cashless Catering System is a solution which is purpose designed to meet the ever evolving needs and demands of the catering provision, required by today's schools and academies. The Trust-e Cashless Solution allows schools to be better able to provide their students and staff with a faster, more efficient and more appealing meal service.

Q What is 'biometric'?

A Biometric is simply a method of identifying an individual person. The Trust-e Cashless System uses an algorithm based scan, which reads between 50 and 130 points on the finger/thumb. It is not a fingerprint in any way, shape or form and is of use only in the Cashless System.

Q How does a biometric system work?

A The information of a pupil or staff member, who has been biometrically registered, is stored on a secure biometric controller within the school, which only the provider, Nationwide Retail Systems, can access with permission from the school. Once an account is credited, the pupil or staff member places their finger/thumb on the EPOS Terminal Biometric Reader, which looks up their account and allows them to purchase items using only this method of identification.

Q What methods of payment can be used to credit an account?

A Any amount can be credited to an account by way of any of the following methods. Once an account has been credited, the monies cannot be withdrawn and must be spent on the school meal/break services.

Online Payments

We have introduced online payments in partnership with the Cashless Catering Solution. To make a payment online please go to <https://www.parentpay.com/>

Q How can I check the credit on an account?

A This can be accessed via your online payment facility. <https://www.parentpay.com/>

Q Can I change my child's 'daily spend limit'?

A Yes – the amount your child can spend throughout one day can be changed by written request to the Catering Dept at school.

Q What happens if my child's account is not in credit?

A A 'lend' can be processed at the EPOS terminal, which will then allow a meal to be taken. An automatic overdraft can be set up, which will allow the pupil/staff member to go into debit at the

cost of 1 meal (again at the discretion of the school). The Cashless Catering System has a debt tracking facility and the ability to send debt letters to overdue account holders.

Q How do 'free meal' entitlements work?

A All free meal entitlements will be entered on to the system prior to the 'live' day. The Cashless Catering System will, on a daily basis, automatically allocate the appropriate accounts with the free school meal amounts. Pupils with FSM entitlement remain anonymous at all times as all account types are accessed in the exact same manner, regardless of whether paid for or not. Please note that any monies not spent from the daily free meal allocation will not be carried over to the next day.

Q Can anyone else use my child's account?

A No – due to the extensive security on biometric templates, no-one will be able to access your child's account. As a secondary precaution, a photo image is allocated to each pupil (at the school's discretion). If your child is using a 4 digit PIN code, which someone obtains and attempts to use, the photograph shown at the EPOS Terminal will alert the operator of a fraudulent sale.

Q My child has an allergy. Will this be monitored through the Cashless System?

A Yes – all allergy records registered with the school will be entered on to the Cashless System. When pupils attempt to purchase an item, which contains ingredients that they are allergic to, the system will alert the operator and prevent them from selling the chosen item.

Q Can I dictate my child's dietary requirements?

A The system will allow you to register any items that your child cannot consume due to dietary needs or religious reasons. Any such items must be confirmed in writing by the parent/guardian, and addressed to the catering dept at school).
