Single equality plan

Glossopdale School is dedicated to ensuring that all members of the school community and the wider community are treated equally, fairly, and with respect by the school and by each other. This applies to the school as a place of education, a business, and an employer. Prejudice, discrimination, and victimisation are not tolerated, and we work hard to instil in our students a strong understanding of right and wrong, including the importance of inclusion, acceptance, and compassion towards others. The school's main priority is to provide the best education and care that we can, and establish a cooperative working relationship between home and school, so as to aid the development, progress, and needs of all the children in our care.

This plan sets out how the school will promote equality of opportunity regardless of race, gender, transgender, disability, age, religion or belief and sexual orientation, in both the delivery of its services and the employment of its staff. It is created by Glossopdale School governing body with the help of the Headteacher in line with the Equality Act 2010 and is the foundation of all the school's other policies – particularly the **special educational needs policy, admissions policy, anti-bullying policy** and the **behaviour policy**. All can be found on our website <http://www.glossopdale.derbyshire.sch.uk/Policies/>. This policy is also referenced from the staff handbook.

Through the creation of this equalities plan, we have been able to develop a better understanding of what the challenges to equality are within the school and how we can best deal with these. This policy will be reviewed as part of the Calendar for Governors policy review, or any time there is an update or change to legislation on age, sexual orientation, religion and belief, or transgender equality, to ensure that it is being effectively implemented and remains focused and up to date on issues surrounding equality both within the school and nationally.

Promoting equality and social awareness in school and within the local community

Community cohesion

The school expects all of its students and staff to act respectfully towards members of the wider community that the school is part of.

Inclusion

Promoting and practising inclusion in school lessons, around the school site, during all school activities and into the wider community is a key part of developing a positive attitude towards equality and people from different backgrounds. You can find more information regarding our provision for and policy on inclusion for SEN in the school's **SEN policy**.

Student voice

Through our support of student voice we encourage our students to have confidence in voicing their opinions and taking responsibility for the world around them. It is important that we teach our children how to engage in mature social interactions and get along with a variety of different types of people. This is developed through student voice by interactions between students from different year groups, students and staff, and students and the wider community.

Recruitment

Glossopdale School is committed to providing equality of opportunity for all and ensuring that all stages of recruitment and selection are fair. Recruitment and selection procedures will be reviewed on a regular basis to ensure that applicants are not discriminated against on the grounds of race, nationality, gender, religion, age, disability, marital status or sexual orientation. Glossopdale School acknowledges that unfair discrimination can arise on occasion and so will ensure that the equal opportunities policy outlined in this plan is the foundation for all its activities.

Where a candidate is known personally to a member of the selection panel it will be declared before shortlisting takes place. It may then be necessary to change the selection panel to ensure that there is no conflict of interest and that equal opportunities principles are adhered to.

More information about our recruitment procedures can be found in the school **recruitment policy**.

Staff

Equal opportunities for staff

As part of our commitment to the implementation of equal opportunities principles and the monitoring and active promotion of equality in all aspects of staffing and employment, the school will ensure that:

- all staff appointments and promotions are made on the basis of merit and ability and in compliance with the law;
- staffing of the school reflects the diversity of our community wherever possible;
- as an employer we strive to ensure that we eliminate discrimination and harassment in our employment practice and actively promote equality across all groups within our workforce;
- we respect the religious beliefs and practice of all staff, students and parents, and comply with reasonable requests relating to religious observance and practice;

- we ensure that all staff, including support and administrative staff, receive appropriate training and opportunities for professional development, both as individuals and as groups or teams.

Staff discipline and suspension

Glossopdale School is committed to ensuring that all school staff are treated fairly and consistently and this is held to account through our **staff discipline, conduct, and grievance policy**.

The education and wellbeing of our students is our main priority. Any member of staff who creates a barrier to learning for our students will be disciplined. The **school's staff appraisal policy** provides more information on how the school monitors staff performance. We hope that staff will feel confident to voice complaints and grievances in the confidential environment of the school and that they will trust the school to deal with their grievances fully, promptly, and fairly. The school puts great faith in all its employees, and hopes never to have to discipline anyone as a result of misconduct.

Behaviour, exclusions and attendance

The school **behaviour policy** takes full account of the duties under the Equality Act. We make reasonable, appropriate and flexible adjustments for students with special educational needs and disabilities. We closely monitor data on exclusions and absence from school for evidence of over-representation of different groups, and will take action to address any concerns that arise in this area.

Read our school **attendance, climate for learning and exclusions policies** for more information on the processes surrounding these topics.

The curriculum

Personal, Social, Health and Economic Education (PSHEE) helps to give students the knowledge, skills and understanding they need to lead confident, healthy, independent lives and to become informed, active, responsible citizens. Therefore PSHEE underpins our School ethos.

Students are encouraged to take part in a wide range of activities and experiences across and beyond the curriculum, contributing fully to the life of their School and communities. In doing so they learn to recognise their own self-worth, work well with others and become increasingly responsible for their own learning. They reflect on their experiences and understand how they are developing personally and socially, tackling many of the spiritual, moral, social and cultural issues that are part of growing up.

We teach them how society is organised and governed. We ensure that they experience the process of democracy in School through the role of Tutor Representatives and School Council.

They learn to understand and respect our common humanity; diversity and differences so that they can go on to form the effective, fulfilling relationships that are an essential part of life and learning.

Therefore this policy promotes practices within the School to reinforce our vision, and to remove or discourage practices that negate them.

Monitoring and review

This single equality plan will be reviewed as part of the policy review calendar by the governing body, unless there is specific reason for it to be reviewed earlier (for example an incident involving members of the school community or new legislation). Governors will review how effective it is in tackling discrimination, promoting access and participation, equality and good relationships between different groups, and that it does not disadvantage particular sections of the community. Governors will also review evidence that it is being put into practice in school by staff and students, and whether there is any need for extra training or development sessions across the whole school to ensure it is promoted and implemented as much as possible.

Information will be gathered through:

- identification of children and young people, parents, carers, staff and other users of the school representing the different protected characteristics. This helps us develop and monitor the scheme. Comprehensive and sensitive efforts are made to collect accurate information and meet security of information requirements, in addition to our duty to secure accurate information relating to ethnicity and first language;
- pupil attainment and progress data relating to different groups;
- children's and young peoples' views, actively sought and incorporated in a way that values their contribution;
- information about how different groups access the whole curriculum and how they make choices between subject options;
- sports and activities choices of all groups;
- uptake of the extended school offer by group;
- exclusions data analysed by group;
- records of bullying and harassment on the grounds of any equality issue;
- data on the recruitment, development, and retention of employees;
- outcomes of activities promoting community engagement and community cohesion;
- outcomes of actions taken to secure the involvement of parents and others who have been identified as difficult to engage.

At regular intervals throughout the year the Headteacher and school leadership team will provide **monitoring reports** for review by the governing body. These will include:

- progress against targets relating to equality and future plans
- school population
- recruitment and retention
- key initiatives.

Outcomes

One of the most important indicators of how successful we are as a school in promoting equality and eliminating discrimination are the outcomes for various individuals and groups. Where robust analysis of outcomes reveals poorer outcomes for any particular groups, an impact assessment will be carried out and an action plan put in place to aid these outcomes. Action plans will outline:

- objectives and specific actions to be taken
- expected impact and indicators of achievement (success criteria)
- clear timescales
- who has lead responsibility
- resource implications
- specified dates for review.
